

Extend your projector lamp warranty now

Here's an opportunity to extend the warranty on your new projector lamp to a full one year from the date of purchase, giving you the reassurance of a speedy and cost free resolution should your lamp fail.

For just a small premium, you are covered for the failure of the lamp during normal use, up to the stated life of the lamp according to the projector manufacturer.

Should the lamp fail during that period you will receive an identical or superior lamp free of charge or receive a full credit. What's more, there is no limit to the number of times you can claim during the warranty period.

You'll find the warranty is available on the majority of projector lamps we supply but please remember to choose it at the point of sale.
