INTRODUCTION

Introducing Vangisnew Enterprise Technology Solutions Guide.

AV makes a powerful impact in an enterprise setting, and this brochure gives you an overview of products that can be used in various locations. Make meetings more fluid, collaborate with ease, and inform visitors to your office with our solutions.

Contact our experienced team today to discuss your project.

Reception areas and corridors are the ideal place to deliver messages that reflect your brand. From wayfinding to room booking, and general digital signage, we have a range of AV solutions to get your message across.

Cloud digital signage

With over 40 templates that include text, images, news feed and PowerPoint, the Sedao PRO-V3 player is simple to use and dynamic.

Video Wall installation

Designed to make video wall installations quick and simple, this modular video wall mount can be used to create unlimited video wall configurations in both landscape and portrait.

MultiSync X Series 46"

Create impressive high resolution video walls with barely visible bezels. Reduced installation & operating costs and low power consumption make this the perfect choice for education.

Thin bezel LCD display

The stylish TH-65LFE8 65" display includes a USB media player – simply insert a USB with video or images and you have an instant digital signage solution.

Sedao RoomXchange

A powerful room booking system combined with fully featured digital signage, in an attractive 10-inch touch screen.

Matrox Video Wall Solutions

Matrox supply an award winning range of graphics cards as well as other products to help you supply content to your video wall.

HUDDLE ROOMS

A small space intended for intimate and informal collaboration sessions and meetings, the **huddle room** is the ideal place to bring a brainstorming session to the next level or to find some peace and quiet for some heavy problem-solving.

CLEVERTOUCH

Pro Series | IR Touch

The Pros Series has superior connectivity and includes 2 Clevershare devices, the Clevershare app, and a Clevercable. An 86" screen is ideal for a larger boardroom.

Panasonic

TH-55LFE8 Professional Display Solutions

This slim design allows effective space utilization, ideal for smaller areas like the staff room. With a depth of less than 62mm, its slim design allows for discreet installation.

Smartmarker

Capture, share and stream live notes from any whiteboarding surface, including glass, straight to your favourite device.

Compact but powerful sound

Ideal for small hall installs, these 40W Pro Audio 5 speakers with Bluetooth capability will give crystal clear sound. Contact us for larger venue solutions.

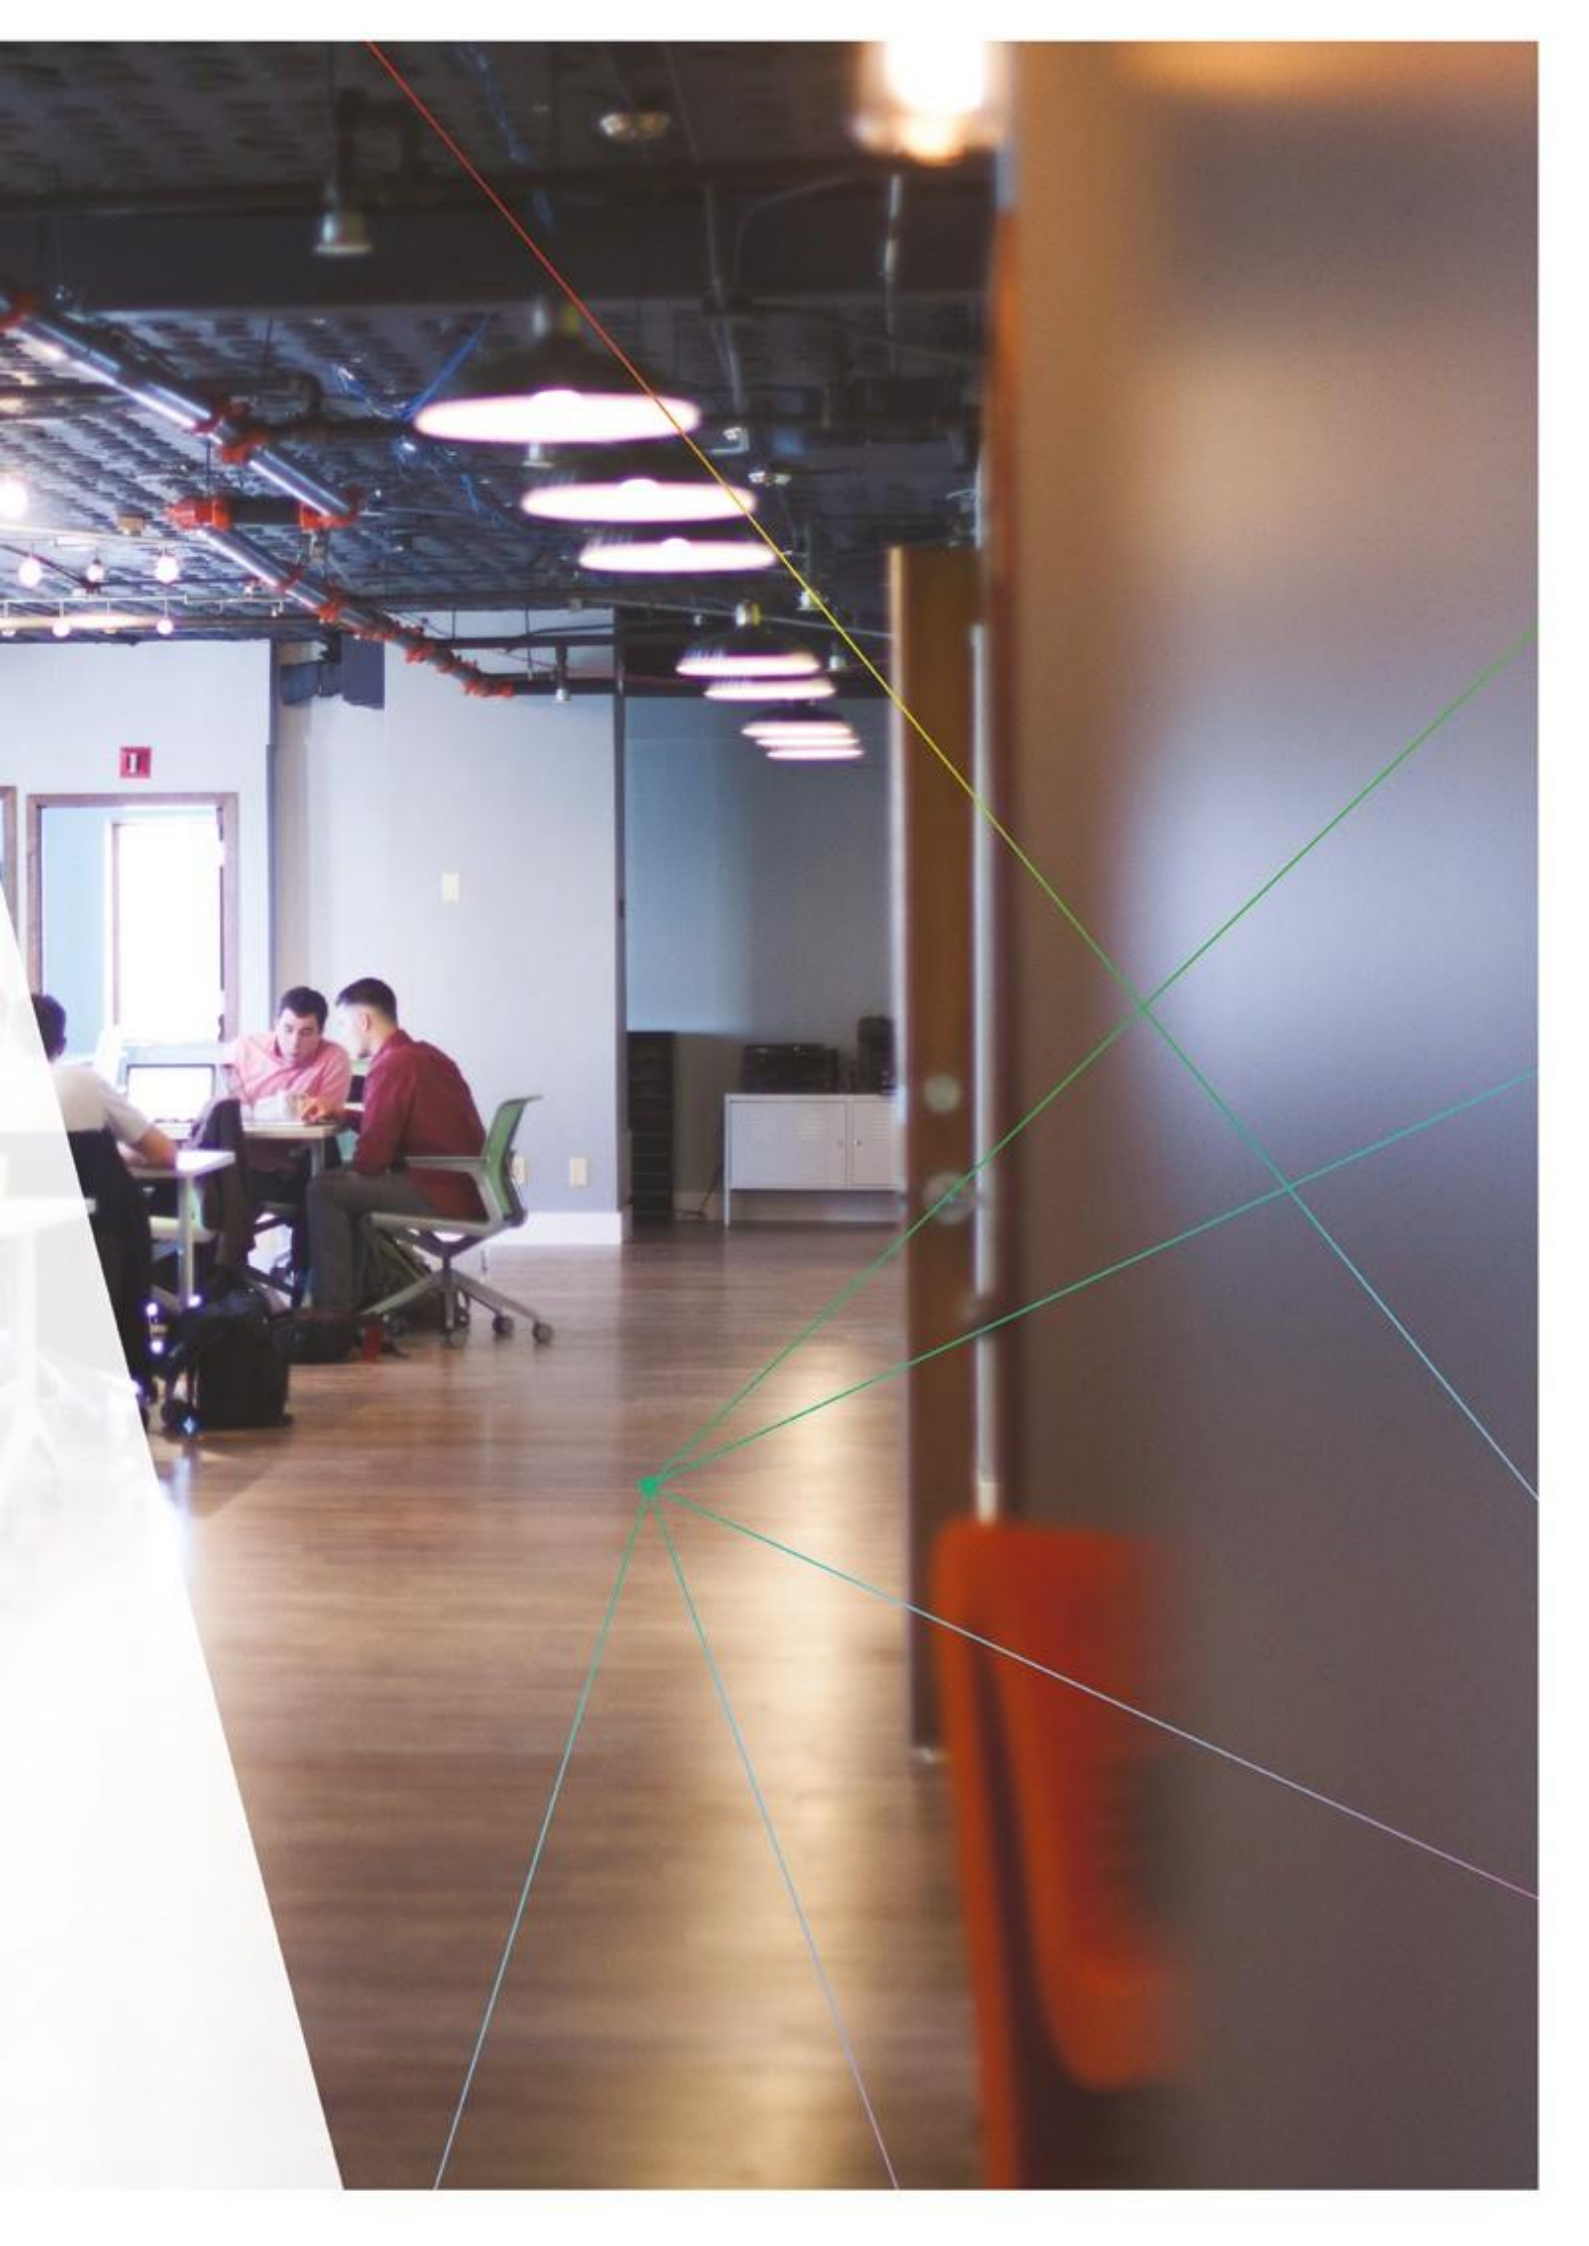

Jamboard

Jamboard takes the whiteboard to the cloud, delivering a collaborative experience designed to unlock your team's creativity, in real-time, from anywhere.

Easy tilt adjustment wall mount

Designed to mount medium to large sized flat screens, the BT8431 features a unique 'Torsion-Tilt' mechanism which allows easy tilt adjustment of the screen up to +/-15°.

BREAK OUTSPACES

These informal areas tend to be used as a kitchen, canteen or staff room, but can double up as meeting spaces.

Jamboard

Jamboard takes the whiteboard to the cloud, delivering a collaborative experience designed to unlock your team's creativity, in real-time, from anywhere.

High-low tilt trolley

With a 500mm height adjustment and tilt into whiteboard, easel or table mode.

Digital menu boards

Display information even in a large, brightly lit canteen with the 42" TH-42LF8. This screen has a wide viewing angle so content can be seen from anywhere in the room.

CLEVERTOUCH

Pro Series | Capacitive Touch

The most stylish of the Clevartouch range, the Capacitive Touch 65" features edge-to-edge technology and expert fluidity.

Multi connect sound

This 60W Bluetooth soundbar provides high quality audio from any a variety of sources.

Ceiling mount for digital menus

The BT8332 modular ceiling mounting system for menu board landscape and portrait installations of any size. Perfect for digital canteen menu boards and advertising.

BOARDROOM

The largest meeting room in a company, seating 12–18 people, used by senior management who generally present from the table. Video and voice calls are often used.

MONTAGE
by DisplayNote Technologies

Montage

Up to 6 meeting attendees can share their device screen with the main display and each other in real time either locally or remotely.

CLEVERTOUCH

Pro Series | IR Touch

The Pro Series has superior connectivity and includes 2 Clevershare devices, the Clevershare app, and a Clevercable. An 86" screen is ideal for a larger boardroom.

CHIEF

Chief XSM1U Fixed Wall Mount

Installer-inspired Fusion fixed mount solves top flat panel installation problems, offering flexible adjustments for large displays with a low-profile display mounting solution.

NEC

Professional projection

The NEC P554U brings brightness of up to 5,500 ANSI lumen to your meeting spaces. Enjoy smooth operation over five years with low maintenance and long lamp life.

DA-LITE

The Tensioned Advantage® screen

Features simple in ceiling installation that can be done in two stages. The case can be installed during the rough-in construction stage and the fabric assembly added during the finishing stage.

JBL
PROFESSIONAL
HARMAN

High output audio

The Control® 28-1 is a two-way 8" speaker with rich sonic character, wide coverage, consistent coverage, versatile mounting, and a contemporary high-design look.

For training, large presentations, product launches and company information meetings.

Share content from multiple devices

The WiCS-2100 taps into the power of group dynamics with fun and stylish collaboration tools such as visual user lists for moderators and auto layout for sharing content from multiple devices.

Panasonic

LFD repeater screens

Highly reliable 24/7 professional signage display, the TH-55SF2 offers high operability ideal for rental & staging, digital signage and corporate environments.

Shine bright with the DU9800Z

Bright 18,000 ANSI lumens with a native WUXGA (1,920 x 1,200) resolution for impeccable colours and outstanding details.

Pro Electric Large Venue

Designed for easy installation and with a two year warranty, these electric projection screens feature a sleek design and high quality construction.

Smart signage screens

The 65-inch ST650K brings together a wide variety of features, including stunning 4K resolution for enhanced engagement and stylish slim design.

SMALL MEETING ROOMS

Small meeting rooms tend to be bookable rooms seating 4-8 with more basic AV requirements than the boardroom.

CLEVERTOUCH

V Series

The V Series allows you to screen share with any device. Open the Note app for instant whiteboarding, or browse the web.

Panasonic

TH-55LFE8 Professional Display Solutions

This slim design allows effective space utilization, ideal for smaller areas like the staff room. With a depth of less than 62mm, its slim design allows for discreet installation.

NEC

65" Entry Level Large Format Display

In a digitised world, signage is no longer static. Information transfer via digital posters and information boards are common methods of information transfer.

Easy tilt adjustment wall mount

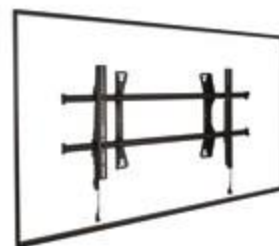

Designed to mount medium to large sized flat screens, the BT8431 features a unique 'Torsion-Tilt' mechanism which allows easy tilt adjustment of the screen up to +/-15°.

Multi connect sound

This 60W Bluetooth soundbar provides high quality audio from a variety of sources.

CHIEF

Installer-inspired Fusion fixed mount

Solves top flat panel installation problems, offering flexible adjustments for large displays with a low-profile display mounting solution.
