High Precision Technology

Jabra PanaCast

Engineered to be the world's first intelligent 180° Panoramic-4K plug-and-play video solution.

Inclusive meetings

Panoramic-4K video using three 13-megapixel cameras and patented real-time video stitching. 180° coverage gives a more natural, inclusive view of the huddle room; the perfect partner for UX Pro and Launcher.

Instant collaboration

Plug-and-play technology lets you collaborate with others quickly and easily, bringing hassle-free video and audio to your meeting. Bring remote team members together and get more done in a seamless, collaborative environment.

Intelligent video technology

Intuitive camera technology detects individual meeting participants and optimizes the field of view to include everyone in the conversation. Video quality is automatically and continuously optimized.

Achieve more

Get more done, with an in-depth integration that allows you to remotely control meetings and devices. No hidden participants, no blind spots, no wasted space and no wasted time, it's as though they're in the same room.

DisplayNote Launcher
