

Connection

- 💡 Do not connect the switch to the Internet, otherwise it will cause network abnormalities.
- 💡 The switch and ethernet cables should be purchased separately.
- 💡 When starting up the system for the first time, you need to connect a mouse to complete the initial configuration.
- 💡 We recommend using the wireless mouse and keyboard kit.
- 💡 For more information about the installation and deployment of accessories (for example, the installation of MCore package or the camera-hub), refer to the Quick Start Guide of corresponding accessory.
