

All-in-One USB Video Bar for Small and Huddle Room

Yealink UVC40 is an all-in-one intelligent USB meeting device for small and huddle rooms. Featuring 20MP camera and 133° super-wide-angle lens, UVC40 delivers outstanding video quality. Together with the electric lens cap, its AI technologies including face detection, sound localization, and speaker tracking and so on allow users to experience a smarter and safer video conference. With 8 MEMS microphone arrays and high fidelity speaker, UVC40 brings excellent call quality even in full-duplex mode. Moreover, UVC40 supports remote management on Yealink Device Management Platform via its built-in Wi-Fi.

Key Features and Benefits

20 MP | SONY 1-inch CMOS | Super-Wide 133° Field of View

20 MP camera with SONY 1-inch CMOS brings UHD 4K video conference with delicate details. With super-wide 133° field of view, everyone in the conference can be seen without adjusting the camera. Moreover, the image brightness can be automatically optimized even in a dim or backlight environment, ensuring the participant faces can be seen clearly.

Smart Video Conferencing with AI Technology

Featuring AI technology, including Auto Framing and Speaker Tracking, UVC40 not only supports framing the groups automatically according to the number and the position of the participants, but also automatically zoom in the speaker without adjusting the camera, making the participants more focus on the conference.

Precise Sound Localization, Full-Duplex Experience

8 MEMS microphone arrays make UVC40 have stronger ability of noise proof and dereverberation. The new upgraded beamforming algorithm, together with technology of processing on acoustic echo cancellation and the dereverberation, brings high quality full-duplex call and realizes more precise voice pickup.

Secure Conference with Electric Lens Cap

The camera electric lens cap automatically opens when the video conference starts and remains closed when not having video conferences, securing your conference privacy.

Built-in Wi-Fi, Remote Device Management

UVC40 can connect to a network via its built-in Wi-Fi, realizing remote device management, configuration, diagnosis, and upgrade.

Compact Design for Fast Deployment

Integrating audio and video, UVC40 takes up less space and minimizes cable clutter, getting ready for a video conference with only the USB cable and the wall bracket.

Applicable to Most Popular Video Conferencing Platforms

As the standard UAC/UVC device, UVC40 is applicable to most video conferencing platforms.

- 20MP camera with SONY 1-inch CMOS
- 133° super-wide-angle lens
- Electric lens cap
- Built-in 8 MEMS microphone arrays
- Auto Framing and Speaker Tracking
- Built-in Wi-Fi, remote device management
- Applicable to most popular video conferencing Platforms
